Rauda Suraj

Front End Developer

https://github.com/Rsuraj143
https://www.linkedin.com/in/surajrauda/

Professional Summary

Front-End Developer with **4.1 years of experience** building scalable, responsive, and user-friendly web applications using **React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, and Redux**. Experienced in developing high-performance websites, integrating REST APIs, implementing SEO best practices, and optimizing Core Web Vitals and website performance. Familiar with **AWS services, including S3, CloudFront, and Lambda**. Strong focus on clean, maintainable code, reusable components, accessibility, and delivering seamless user experiences.

Technologies and Languages

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap,Aceternity UI.
- **UI/UX & Animation:** Responsive Web Design, Material UI, Framer Motion, Figma-to-React Development, UI Implementation.
- **State Management & Forms:** Redux, Context API, React Hooks, React Hook Form, Formik, Yup, Zustand.
- **API & Integration:** REST APIs, API Integration, Axios, JSON, Form Validation, Backend Service Integration.
- **AWS & Cloud:** AWS S3, CloudFront, Lambda, API Gateway.
- **Performance & SEO:** Core Web Vitals, PageSpeed Insights, Website Performance Optimization, Technical SEO, Server-Side Rendering (SSR), Image Optimization.
- **Tools & Version Control:** Git, GitHub, VS Code, Google Tag Manager, ImageKit.
- **Core Competencies:** Frontend Development, Web Application Development, Reusable Component Development, Cross-Browser Compatibility, Accessibility, Clean Code, UI Development.

Work Experience

Front-End Developer **Miles Education** , Bengaluru, India **May 2024 – Present**

- Develop and maintain responsive, high-performance web applications and websites using **React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS**.
- Develop and enhance **MilesForce CRM** features, including lead management, enrollment workflows, user authorization, lead details, and team management interfaces.
- Build reusable UI components, landing pages, course pages, blog pages, and dynamic forms to improve development efficiency and user experience.
- Optimize website performance and Core Web Vitals, improving the landing page's **PageSpeed Insights score from 60 to 85** through frontend and image optimization.
- Implement SEO best practices, including server-side rendering (SSR), URL restructuring, pagination improvements, robots.txt corrections, and technical SEO fixes.
- Integrate REST APIs and backend services for form submissions, lead generation, data validation, and enrollment workflows.
- Improve CSS performance by removing unused and duplicated styles and optimizing shared components and stylesheets.
- Work with AWS services, including **S3, CloudFront, and Lambda**, for website hosting and backend workflows where applicable.
- Collaborate with cross-functional teams to deliver new features, troubleshoot production issues, and maintain website quality and reliability.

Front-End Developer **TRooInbound Pvt. Ltd.** Surat, Gujarat, India **Nov 2022 – May 2024**

- Developed dynamic web applications using **React.js, Redux, and Tailwind CSS**.
- Collaborated with cross-functional teams to integrate APIs and enhance performance.
- Built an **Admin Analytics Dashboard** with React, Formik, and Recharts.
- Created **in-house templates** for TRooThemes using React.js, Bootstrap, Tailwind CSS, and Material UI.
- Delivered an **offline-first voting app** using React.js, Tailwind CSS, and Service Worker for offline support.

Projects & Achievements

Miles Education Website Development & Performance Optimization:
Tech Stack: Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, Redux, REST APIs, AWS S3, CloudFront, Lambda

- Developed and maintained responsive, SEO-friendly websites, course landing pages, blogs, campaign pages, and reusable UI components using Next.js, React.js, TypeScript, and Tailwind CSS.
- **Improved Google PageSpeed Insights score from 40 to 98** through image optimization, frontend code improvements, CSS cleanup, and removal of duplicate and unused styles.
- **Improved Ahrefs site health score from 78 to 99** by fixing 404 errors, optimizing URL structures and pagination, correcting robots.txt issues, and implementing technical SEO best practices.
- Implemented server-side rendering (SSR), optimized blog routing and rendering, enhanced related blog functionality, and improved image quality to strengthen SEO and user experience.
- Integrated REST APIs for lead-generation forms and enrollment workflows, implemented form validation and thank-you page redirections, configured Google Tag Manager (GTM), and worked with AWS S3, CloudFront, and Lambda for website hosting and backend integrations.

MilesForce (CRM):
Tech Stack: Next.js, React.js, TypeScript, Tailwind CSS, Zustand, REST API, Axios

- Developed responsive and interactive CRM UI components using Next.js and Tailwind CSS.
- Implemented real-time lead calling functionality with Pusher for instant communication updates.
- Built role-based routing and access control for secure and personalized user experiences.
- Integrated REST APIs for lead tracking, enrollment workflows, and performance analytics.
- Optimized performance through code splitting, lazy loading, and responsive design best practices.
- Collaborated with UI/UX designers and backend developers to convert Figma designs into clean, maintainable code.

Canvassing App (Voting Web Application)
Tech Stack: React.js, Tailwind CSS, Axios, REST API, Service Workers, IndexedDB

- Developed an offline-first voting web application for areas with low or no internet access.
- Utilized Service Workers and IndexedDB to enable offline data storage, sync, and retrieval.
- Integrated Google Maps API to track user location and visualize voter zones.
- Built responsive and dynamic UI from Figma designs using React.js and Tailwind CSS.
- Integrated REST APIs for real-time voting data submission with offline sync capabilities.
- Ensured cross-device compatibility and seamless offline-to-online transitions.

Push Analytics (Admin Panel)
Tech Stack: React.js, Tailwind CSS, Axios, REST API

- Designed and developed a dynamic admin dashboard for marketing data visualization.
- Built interactive charts and graphs using Recharts for insightful data display.
- Implemented secure role-based routing and access control for user-specific views.
- Translated Figma mockups into clean, reusable, and responsive UI components using React.js and Tailwind CSS.

TrooThemes
Tech Stack: React.js, Tailwind CSS, Bootstrap, React-Bootstrap, HTML, CSS.

- Developed and maintained a collection of **business-ready website templates** tailored for diverse industries.
- Created fully responsive and cross-browser compatible UI components using **React.js**, **Tailwind CSS**, and **React-Bootstrap**.
- Focused on enhancing **user experience**, visual design consistency, and mobile-first performance optimization.

Education and Certifications

- **UI Full Stack Development,** Naresh IT
- **B.Tech Mechanical Engineering,** BPUT, Odisha, India.
